

MBAM TECHNICAL MACHINERY UPDATES BRIEFING 1/2017

19th May 2017
Sunway Construction Sdn Bhd
– Machinery Division USJ1

Case History and Product Range

It began with an inventor, Jerome Increase Case, and the challenge of a frontier, not on a map but in the history of modernization. That was in 1842. With the partnership of Case and Sunway, the frontiers of expansion has widened with the introduction of the full range of construction equipment and after sales services in the region.

Case Full Product Range Benefits & Testimonials

With the introduction of the range of Case Construction into the Malaysian market, the advantages of performance, features and efficiency will be shared along with customer testimonials on the operating performance and reliability of the machines.

Experience first-hand the versatility, performance and quality of the range of Case machines on display.

Mr. Danilo Catalucci

Head of Marketing, Construction Equipment,
South East Asia, Pakistan and Japan

Case Machinery

SANY (officially Sany Heavy Industry Co. Ltd) is a Chinese Multinational heavy machinery manufacturing company headquartered in Changsha, China. It is the sixth-largest heavy equipment manufacturer in the world. With the partnership of Sany and Sunway, the frontiers of expansion has widened with the introduction of construction equipment and after sales services in the region.

SANY has led the world in concrete pump and cranes with the acquire leading German concrete machinery manufacturer **Putzmeister** in year 2012. Besides that, **SANY** also joint-venture with Austria-based heavy machinery manufacturer **PALFINGER AG** in year 2012.

Sany SRC250 is the first **SANY** Rough Terrain Crane in Malaysia. **Sany SRC250** rough terrain crane boasts excellent travelling capacity and high performance chassis system. It can handle tight traffic and complex road conditions due to its small minimum turning radius of only 5.5m. Sunway successfully sold the first and longest **SANY** 48m Truck Pump to MMC GAMUDA in year 2014 for MRT1 Project. **SANY SR285RW10** Bored Pile Machine is the new model in Malaysia to feature in MRT2 Project in year 2017. **Sany SR285RW10** is the 5th generation rotary drive adopts multi-gear control, self-adaptive techniques and double buffering system which can increase drilling efficiency and safety.

Manitowoc provides the most innovative, advanced and comprehensive range of lifting solutions with Grove mobile telescoping cranes, Manitowoc lattice boom crawler cranes, Potain tower cranes, National Crane boom trucks and Shuttlelift industrial cranes. In addition to these outstanding product lines, Manitowoc offers outstanding support services through Manitowoc Crane Care.

Potain has led the world in tower crane and self-erecting crane production since its inception in La Clayette, France in 1928. Over 100,000 Potain cranes have been sold and installed on some of the most prestigious job sites around the world. The company offers more than 60 models in a variety of product ranges, including the Potain Hup self-erecting cranes.

The new **Potain Hup 32-27** self-erecting crane boasts unique and innovative design features and provides superior lifting capacity at tall heights, increasing productivity for owners. The Hup 32-27 is well-suited to space-restricted job sites where the new crane delivers unprecedented performance. It features an adjustable two-section mast that has a third section contained within the second. This design allows the third mast section to be telescoped out, boosting the working height of the crane to 27 m.

Mr. Jean-Pierre Zaffiro

Global Product Director,
Manitowoc

Potain Hup 32-27
