

MBAM/S/8/17

MBAM IBS Committee
4 Days Professional IBS Training
10 & 11 July and 17 & 18 July 2017
8:30 AM ~ 5:00PM, MBAM Training Centre

INTRODUCTION

IBS Construction is not new in Malaysia. It was introduced somewhere in 1960's by foreign contractors for housing projects. i.e. landed and multi storey buildings. However due to several problems especially jointing issues and leakage at the jointing that caused poor uptake by the local industry players. Over the years, with the advancement of technology some of these problems have been solved. Despite of the level of acceptance by our local industry is still low.

CIDB is endeavors to promote IBS construction because it is able to address several prevalent issues such as poor quality of construction work, less productive, relatively long construction period and too dependency on foreign labours. Furthermore IBS construction underpins sustainable construction. Apparently CIDB opined that one of the measures to facilitate the industry to advocate IBS construction is to enhance the level of knowledge among professional fraternity in construction. On that premise, that CIDB has introduced a training module for professionals primarily to improve their level of knowledge in IBS. Eventually, the candidates are potentially deemed to be registered as IBS consultant with CIDB.

IBS is the way forward for future construction projects. The government has shown its commitment in pushing the agenda on IBS through making it mandatory for government projects to utilize at least 70% IBS components. As a gesture of support to government aspiration, MBAM has taken the concerted effort to organize this training.

TRAINING PROGRAM

TRAINING MODULES	DURATION	CERTIFICATES
M1 – Introduction to IBS M2 – MC System M3 – IBS Score M4 – Design Concept for Pre-fab Concrete System M5 – Project Management	4 days	Issued by CIDB Malaysia

MBAM/S/8/17

MBAM IBS Committee
4 Days Professional IBS Training
10 & 11 July and 17 & 18 July 2017
8:30 AM ~ 5:00PM, MBAM Training Centre

TRAINER'S PROFILE

The trainer for this training is **IR DR. MUKHTAR CHE ALI** who is a retiree from CIDB since April 2016. His last post was General Manager of Construction Material Division. Generally his main task then was to regulate construction materials to conform to the required mandatory standards. Among his key roles were the development of mandatory standards i.e. Malaysian Standards, technical evaluation of laboratory report i.e. Full Type Test Report (FTTR), technical visit to laboratories, verification of products at factories, local and abroad. Prior to that, he held the position of General Manager of Safety, Health, Environment and Quality Division (SHEQ). When he was in SHEQ he has played a pivotal role in development and implementation of QCLASSIC. Apart from that he was also actively involved in implementation and monitoring CIDB DIY Scheme on ISO 9001 QMS. During his tenure at SHEQ, he was invited to be involved in several IBS programs by CIDB. Due to that exposures, he has acquired some fair knowledge on IBS and understand some issues related to implementation of IBS. He is also an accredited IBS trainer by CIDB. His first degree was Bac. Of Agric. Engineering (Hons) from UPM. Later in 2010 he completed his Masters of Engineering (Construction) from UTM. Eventually in 2015 he finished his PHD from USM. He is a registered professional engineer with BEM and also the corporate member of IEM.
