

# IMPROVE HEALTH, SAFETY AND PRODUCTIVITY AT WORK WITH HILTI

In line with CIDB's CIP to upgrade and innovate the construction methodology, creating a safer jobsite and doubling productivity in Malaysia, Hilti, a global leader in construction system solution has a wide range of cordless innovations that match perfectly with Dust Removal System (DRS), while some tools are equipped with Active Torque Control (ATC), Active Vibration Reduction (AVR) and Cold Cut Technology.

Improper or no cleaning of hole during anchor and installation is always the main reason for the pullout test failure. With Hilti SafeSet Technology, you can avoid this failure problem without hole cleaning. This increases your productivity, reliability and safety with approval from European Technical Approval (ETA). Besides that, our chemical epoxy are approved with VOC and NSF certificate, which is safe for work, and save up to 10% of consumption and time by using with Hilti HDE electrical dispenser. Use HUS3 anchor with Hilti impact wrench speeds up the temporary work installation process by 40% too.

What can you change in your daily operation to further improve your company's profitability? Digitalization of asset management helps to monitor expiry date of safety certificates and qualifications, improving productivity and cost saving. This means higher profit to your company.

## OBJECTIVE

- To increase the awareness of the importance of health and safety at work
- To introduce health and safety feature within Hilti's innovation in Electric Tools and Accessories and Anchor Installation at the construction industry
- To introduce asset management solution which helps to increase profitability through improving on work productivity and reducing costs

## AGENDA

- 2.00pm – Registration
- 2.30pm – Hilti – an introduction
- 2.45pm – Improve health, safety and productivity at work with Hilti anchor installation
- 3.30pm – Break
- 3.45pm – Improve health, safety and productivity at work with Hilti electric tools and accessories
- 4.30pm – Improve jobsite productivity with Hilti asset management solution
- 5.15pm – Group photo
- 5.30pm – Proceed to MBAM Fellowship at Million 9 Club (M9)

## SPEAKER

**Gary Tse**

General Manager

Gary graduated with M.Eng in Engineering Science from University of Oxford. He has more than 14 years of experience within Hilti. He started off as an Engineer then became Area Sales Manager in Hilti Hong Kong. Later he joined the Marketing team in China and became Head of Marketing in China before joining Hilti Malaysia as the General Manager.

**Ir. Ng Beng Hooi**

Head of Engineering

Beng Hooi has more than 12 years experience in engineering and 3.5 years with Hilti. He started off as the Engineering Manager and becoming Head of Engineer in 2018, leading engineering team in providing post installed anchor, rebar and firestop for Structure, M&E and Façade applications.

**Kelvin Lee**

Head of Marketing

Kelvin graduated with B.Eng (Civil & Structural). He has 17 years of experience in the construction industry and 10 years with Hilti specialized in the engineering, sales and marketing field. Current position is the Head of Marketing with Hilti Malaysia.

**Teddy Beh**

Service Manager

Teddy joined Hilti Malaysia in 2015 as an Account Manager for Building Construction in Klang Valley. 2 years later, he became the Diamond & Demolition Specialist. In 2018, he then became the Service Manager for ON!Track Asset Management.
