## SEMINAR ON SHAPING THE FUTURE OF INDUSTRIALISATION IN CONSTRUCTION

Venue: Kuala Lumpur Convention Centre  
13 October 2023, 9:00 am – 12.30 pm

The construction industry in Malaysia is transitioning from conventional methods to a more systematic and mechanized method known as the Industrialised Building System (IBS). By implementing IBS in construction, companies can improve construction quality and productivity, alleviating issues for skilled workers and dependency on manual foreign labour and ultimately lowering overall construction cost.

The objectives of this seminar is to share on the current and the future IBS including related to policies, guidelines, best practices in line with CIDB Construction 4.0 and provide knowledge to the industry players for the betterment of Malaysian construction industry.

Attendees: Master Builders Association Members, Contractors, Developers, Professionals, Government Agencies, Educational Institutions, and others association related to construction industry
