PRESS STATEMENT

MBAM ANNUAL HR CONFERENCE 2025

Petaling Jaya, 10 July 2025 – Master Builders Association Malaysia (MBAM) successfully organised its Annual Human Resource (HR) Conference 2025 today at Armada Hotel, Petaling Jaya, with the theme “The Future of Construction Human Resource.”

The full-day event brought together many high level **participants**, including government agencies, industry experts, and company representatives, to discuss current issues in workforce development, talent needs, and HR practices in the construction sector.

The conference was officiated by YBhg. **Datuk Azman Bin Mohd Yusof, Secretary General of the Ministry of Human Resources (KESUMA)**, who also delivered the **opening speech** as the **Guest of Honour**.

In his speech, Datuk Azman shared that the construction industry is now going through major changes. He said:

“The construction industry is facing a big transformation. New technologies such as Building Information Modelling (BIM), automation, and green construction require workers who not only have traditional technical skills but also know how to use digital tools and apply sustainable practices. On top of that, job expectations are changing, including the need for flexible work and better safety at construction sites, making human resource development more important than ever.”

“The rise of digital tools, the growing emphasis on sustainable construction, and the demand for higher safety standards require a workforce that is not only skilled, but also adaptable and forward-thinking. At MBAM, we are proud to support this transformation, as of 30 May 2025, we have trained a total of **8,084 safety personnel** through various safety-related programmes,” said **Mr. Oliver HC Wee**, President of MBAM.

This conference reflects MBAM’s ongoing efforts to support human capital growth and improve the construction industry in Malaysia.
