The National Ready-Mixed Concrete
Association of Malaysia

CHALLENGES AND OPPORTUNITIES IN A NEW MALAYSIA

INTRODUCTION

Over the years, the NRMCA Concrete Convention had served as a platform for the industry experts to showcase the latest technologies, equipments, and best practices for the advancement of the concrete industry in Malaysia.

The biennial event which is highly regarded among NRMCA members and non-members alike is expected to attract about 300 participants as per previous records. It serves as a great platform and opportunity for concrete industry communities which include concrete producers, regulators, engineers, equipment, admixture and aggregate suppliers and its trade partners to get together and network with one another.

2019 NRMCA Concrete Convention

This year's Convention entitled "Challenges and Opportunities in A New Malaysia" cover topics such as new materials to produce modern concrete, production highly durable concrete and use of Apps to control deliveries as well as the latest safety and the environmental best practices.

10% OFF!

For Early Bird registration before 31 May
