ABOUT THE TALK

On the occasion of the 10-year anniversary of GBI, we will explore challenges and opportunities, myths and realities surrounding the cost of Malaysian green buildings. The talk will also highlight cost-effective design and construction practices as well as strategies for maximising green returns on investments

Other key point will be discuss in this talk are:-

- Update on latest developments with the Green Building Index
- Are Green Building's Expensive?
- Analysis of GBI Qualifying Green Costs: 2009 – 2019
- GBI Return on Investment
- Common Mistakes and Misperceptions
- Cost Effective Green Building Practices

SPEAKER PROFILE

Mr. Mitchell Evan Gelber

Mr. Mitchell Evan Gelber is Technical Committee of Green Building Index. He has worked with issues of architectural design and sustainability in both Asia and North America. He holds Bachelor of Arts degree in Urban Design from Columbia University in New York and a Masters of Architecture from University of British Columbia in Vancouver, Canada. Mr. Gelber is active member of Malaysia's Green Building Index (GBI) Technical Committee and helped develop the latest version of the GBI Residential New Construction Tool. He serves on the research committee for MGBC's Green Pages Malaysia and has previously lectured at the University of Malaya, school of architecture.

As founder of YIDesign Green Buildings, Mr. Gelber consult on building and planning projects both within Malaysia and abroad. He has been a featured speaker at design and sustainability conference in Malaysia, Singapore, Australia, USA, Philippines, Turkey, India and Hong Kong. In 2019, he edited the book entitle Greening Malaysia: Building Towards Sustainability in celebrating 10-year anniversary of the Green Building Index. In addition to GBI, he has also worked with a variety of other international green building rating tools including LEED (North America), Green Mark (Singapore), BEAM Plus (Hong Kong), Green Star (Australia) and the Living Building Challenge (USA).

WHO SHOULD ATTEND

- Managing Directors
- Directors
- Consultants
- Estimators
- Project Directors
- Project Managers
- Construction / Site Managers
- Contract/Commercial Managers
- Architects
- Quantity Surveyors,
- Engineers
- Site & Technical Personnel
- Sub-Contractors
- Suppliers
- Purchasers
- Academicians
- other stakeholders in the construction industry.

WORDS FROM GREEN BUILDING INDEX

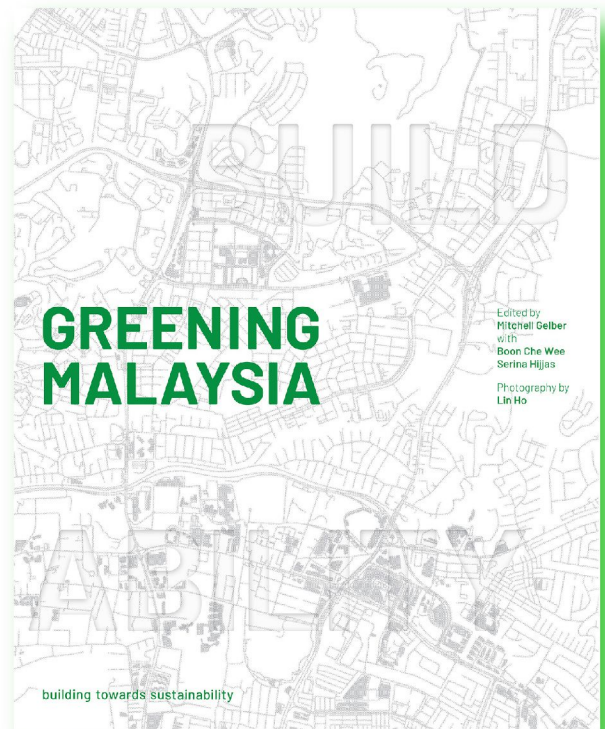

We are pleased to announce the launch of GREENING MALAYSIA: Building Towards Sustainability.

The book celebrates the 10-years Anniversary of GBI by reflecting on Malaysian green buildings' past, present and future. Published by Pertubuhan Akitek Malaysia (PAM) in conjunction with Kuala Lumpur Architecture Festival 2019, the book was officially launched on 4 July 2019 by YB Yeo Bee Yin, the Hon. Minister of Energy, Science, Technology, Environment and Climate Change.

GREENING MALAYSIA features building performance data from GBI's first ten years and 500 certified projects, in total over 225 million square feet of gross floor area certified throughout Malaysia. It then takes a closer look at 15 GBI certified case study projects that reflect a wide range of building types, constituents and innovative green building design solutions. The book concludes with a series of articles by individual architects, engineers, designers, community organisers, academics and planners that look towards the future of green buildings in Malaysia, the next ten years, and beyond.

Programme :

- 9.00 AM Registration
- 9.30 AM Welcome Remarks
- 9.40 AM Presentation On "Green Buildings, Greener Profits"
- 12.00 PM Q & A Session
- 12.30 PM Lunch
- 1.30 PM End of programme
