Dear Sir/Madam,

WEBINAR ON BUILDING DEFECTS AND QCLASSIC

Almost all home buyers now follow the current trend of hiring building inspectors as soon as they take vacant possession of their property to look for flaws. Their facilities will soon be covered in colourful sticker markers denoting the flaws that suggest shoddily built walls, flooring, ceilings, and fixtures, creating the gloomy impression of a disaster. Unfortunately, contractors are wrongly blamed despite its consequences.

MBAM is concerned with this trend because ultimately developers will ask contractors to rectify and bear all the repair costs. Building checkers have ill-advised house buyers by improperly relying on benchmarks such as Quality Assessment System in Construction (QCLASSIC) which is a method used to evaluate the quality of work in construction projects based on the standards set according to construction contract specifications and not to use for individual homes.

MBAM has put together this webinar on Building Defects and QCLASSIC and is seeking participation from members so that the issues faced by members can be highlighted and views by the invited speakers and panellist can be shared with members.

Details of the webinar are as below:

Date : Tuesday, 14 February 2023
